Insurance Counselor Service Will Be Available to Employees Jan. 14

Commercing Monday, Jan. 14, Sandia Corporation employees will be able to obtain life insurance counseling service without cost or obligation. Arrangements have been made with Minnesota Mutual Life Insurance Company to have an insurance representative maintain an office here to provide service and assistance to employees in insurance matters.

Roy Hoff, who will be the counselor, will have an office in the Employee Services Building T-301 and, in addition to being in his office during working hours, will make evening appointments if desired.

The purpose of establishing the insurance plan is to help employees in their own personal life insurance programs and make available to them life insurance which may be paid through payroll deductions.

This program is in addition to the regular Sandia Corporation Group Life Insurance which covers employees who have been on the roll more than two years. The new plan will be a cooperative one in an way affects this group insurance coverage.

No Medical Exam

Another advantage of the plan is that no medical form of ordinary life policy, limited payment life policy, endowment policy or retirement income bond is generally available to employees who are employed without medical examination, but the insurance company reserves the right to reject any application for insurance if it is deemed desirable.

Complete benefits and advantages of the Employees' Life Insurance Plan are listed in a booklet to be distributed to all employees.

Mr. Hoff is a native of St. Paul, Minn., and has been living in New Mexico since 1946. He first came to the state while in service and was on duty at Los Alamos for three years. After his discharge he entered the insurance business in New Mexico.

He extends an invitation to any employee with insurance problems to visit him and he will assist in planning a program which best works with the employee's social security benefits, the Corporation's group insurance plan and retirement plan and the person's own insurance.

Sigma Xi Members Sought by Chapter

Sigma Xi members who desire to become affiliated with the Albuquerque chapter are urged to call Dr. F. G. Hitch, Extension 43B. The meetings are held regularly and outstanding speakers are obtained frequently. Dr. Hitch is anxious to obtain the names of local members of Sigma Xi so that they may be placed on a mailing list to receive news of the club's activities.

The Stork Brings Christmas Gifts To Sandia Families

Santa Claus and the Stork have teamed up to provide two Sandia families with the world's finest Christmas gifts.

On Christmas Eve a 6-pound, 9ounce girl was born to Ann and Jim Jonas, 2804 A Street, and she is their fourth child. The three others are Jill, 5, Jim Jr., 3, and Kathy Lee, 2. Jim, who was just named division supervisor of D-3, has been here since 1946. He came here from Los Alamos.

The new baby was born at 9:57 in the evening. Mrs. Jonas gave birth in the Los Alamos hospital. Her husband, Jim, is reported doing diligently well. The baby hasn't been named yet and the Maffit's have announced that they are open to suggestions. This is their third child, they have 3-year-old twins named Randy and Robbie. Papa Maffit, who is long on statistics three days, also reported that the newborner was the third baby born at St. Joseph's Hospital on Christmas Day.

ID Cards Needed For Entrance to Both Main Gates

Restricted area badges will not be required for entrance to the base by Military Police stationed at the West and North gates beginning January 14. The Base Security Office has required that permanent identification cards and temporary passes be used when entering or leaving Sandia Base.

The change in regulations has been made necessary by the increasing rate of loss of restricted area badges.

There are five types of identification which will be recognized at the gates: All permanent Sandia Base identification cards, temporary passes carrying any code "Able" identification cards, AEC or Los Alamos identification cards and AFSWP ID cards.

It was also announced that holders of certain identification cards might now obtain temporary passes for general serving five or less. These passes are good for 72 hours. The passes must be secured personally from the Military Police at the West or North gates.

Cards which permit one to obtain these guest passes are: permanent passes bearing any code A, B, C, D, E, or RD; "Able" ID cards; and, temporary Sandia Base ID cards coded XA, XE or XN.

SIGMA XI MEMBERS Sought by Chapter is discussed by Roy Hoff, who will be the company insurance counselor Jan. 14, and John Merriam and Mrs. Jimmie Emmans, both at 2231 E. Gibson Avenue.

Mr. Hoff will have an office in Bldg. T-301, Employee Services Building, and will be available to employees who wish to see him.

A Message From the Field Manager

Mr. G. A. Landry
President, Sandia Corporation
Sandia Base
Albuquerque, New Mexico

My dear Mr. Landry:

I should like to express to you and your staff the appreciation of the employees of D-12 for VERY NEARLY CHRISTMAS!

The fine cooperation which we in Sandia Field Office have received from every department of Sandia Corporation is deeply appreciated and I hope that we will see us all through a SUCCESSFUL AND HAPPY YEAR.

Very sincerely yours,
Daniel F. Worth, Jr.
Field Manager

This Is the Way It Looks

When Matthew P. "Pop" Ungerman looked at the entrance of Bldg. 800 a while back he began to get ideas for the Christmas season.

At that time he had it his responsibility the care of the lobby of the building. Pop had plenty of time to look at the large glass doors and the big expanse of glass window. Eventually, his plans took form and he drew a rough sketch which he sent to L. J. Helleman, superintendent of plant services. It looked good to everyone and Pop's ideas were carried out and he is the man responsible for the holiday decorations placed around the entrance to Bldg. 800 this year.

Wife Gets Credit

Not only did he develop the ideas for the trimming, but he spent a day supervising installation of the greens. However, Pop hastens to point out that he was assisted by his wife who "is the artistic one in the family."

Pop is a native of St. Louis where he lived for 25 years and has a contracting business. He came to New Mexico about 30 years ago and practiced his profession. About two years ago he helped out in a radio station in Santa Fe, N.M., as a salesman. He decided that something should be done about the sales display and the became a self-appointed window trimmer. That began his hobby of decorating and since then he has won several home decoration awards at Christmas time.

Engineers to Meet At University, Jan. 7

A technical lecture on "Instrumentation for Measurement of Shock, Pressure and Structural Response" will be presented at a meeting of the Instrument Society of America by Byron Murphrey, III. The society will hear the talk Monday, Jan. 7, at the University of New Mexico's Dame Club at 5:30 p.m. The meeting will precede the regular meeting.

Good Ideas Plus Ability to Carry Them Out Made This Job Possible

Pop is modest about his decorating ability and gives most of the credit for his accomplishments to his wife. His only claim to fame, he says, comes from way back in 1914 before he became a World War 1 private in the infantry. He was one of eight young men in St. Louis who started the groundwork for the forming of the United States Junior Chamber of Commerce.

Starting work here at the Corporation in building maintenance in July, Pop has been a warehouseman and is now an inventory clerk. He believes in planning ahead for, he says that he has a few plans for the entrance of 800 next year that he thinks will be attractive for the holiday season.

Christmas Was Extra Merry for These Folks

Christmas, 1951, was a contrast to the holiday of 1950 for Zorro Bradley, husband of Natalie Bradley, 1121, This year the couple spent the week end in San Monica and San Diego.

One year Zorro was aboard a troop ship in Korean waters and saw the bombardment of Inchon on Christmas day and that night looked with the infantry and was sent to Wonsan, Korea. He was a reservist called up to active duty and while he was gone Natalie stayed on with her work at Sandia.

Tom Vigil, formerly of 2231 West and North gates beginning January 14. The Base Security Office has required that permanent identification cards and temporary passes be used when entering or leaving Sandia Base.

The change in regulations has been made necessary by the increasing rate of loss of restricted area badges.

There are five types of identification which will be recognized at the gates: All permanent Sandia Base identification cards, temporary passes carrying any code "Able" identification cards, AEC or Los Alamos identification cards and AFSWP ID cards.

It was also announced that holders of certain identification cards might now obtain temporary passes for general serving five or less. These passes are good for 72 hours. The passes must be secured personally from the Military Police at the West or North gates.

Cards which permit one to obtain these guest passes are: permanent passes bearing any code A, B, C, D, E, or RD; "Able" ID cards; and, temporary Sandia Base ID cards coded XA, XE or XN.

This Is the Way It Looks is Matthew P. "Pop" Ungerman explains to Jean Hilliard, 2223, as they look over a sketch of the decorations for Bldg. 800. Pop formulated the plans and supervised the installation of the greens and other trimmings. Already he has plans for Christmas decorations for next year.

Advocate's Planning Ahead

Pop is modest about his decorating ability and gives most of the credit for his accomplishments to his wife. His only claim to fame, he says, comes from way back in 1914 before he became a World War 1 private in the infantry. He was one of eight young men in St. Louis who started the groundwork for the forming of the United States Junior Chamber of Commerce.

All About New Year Resolutions

If you are an average American, you have probably prepared a few New Year resolutions which you have vowed to observe despite temptation and lapses of memory. Perhaps you promise to be more moderate, more responsible, more charitable, to do more good deeds, to do fewer things which you think will be for the better. These are the things which New Year resolutions are made. They are commendable.

We all have a few such resolutions and in these early days of January they stand firm, but there is danger of their suffering with the ravages of time. If they do, we will be one of the "falling resolutions" and they will become legend as the year grows older.

There are a few things which every one of us should resolve. These should not be classed as the routine tips of January 1 declaration. There are special.

First, let us pledge that we will individually maintain the high standard of integrity which is the foundation of freedom and the cornerstone of democracy.

Then let us be sure we are giving our nation our best efforts. Some men are giving their lives; we are giving our talents, our skills and our time. Our country is in trouble and we need the firm support of all of her citizens and in particular those of us who have been chosen for this special assignment in the atomic weapon program which is so important because its success will either prevent war or win if America is destined to fight a war. And also in the years to come, let us resolve to practice tolerance, charity and equality — for these are more faults of a good American.

To these three, add your own resolutions. Choose them wisely and cautiously, then abide by them. And finally let us be thankful that we live in a country where we may determine our own resolutions. It would be a sad day if on Jan. 1 our neighborhood committee handed us a ready-made list of our plans for the year.

In fact, we may be grateful that we live in a country where we may not determine our own good intentions but that, on the contrary, our government does.

Grant your beatings and resolve wisely.

News from Men in Service

Teaching Marine officers at Quantico, Va., is now the assignment of Lt. Paul C. House, formerly of 2463, Parkhill, Colo. He left his job in Virginia but would trade a little Virginia rain for some New Mexico dust. He hasn't forgotten "good ole Sandia Base" and says that he will write back the 45-cent letter from his friends with a 10-page answer.

After "wearing out" an assignment in B-29 crew training, Loren T. Erdman has been assigned by the Director of Supply Services and Maintenance Engineering for Special Weapons at Wright Field, Day-

ton, O. Louell, who was in 2332-3, writes that he hopes to see his friends in 2300 and be spent the New Year in the meantime, would like to continue receiving the BULLETIN. He gives his address as Loren T. Edmundson, Capt., USAP, Area "A", Box 201, Wright-Patterson AFB, Dayton, O.

Lawrence Chaves, formerly of 2334-3, is now a member of the 88th Tank Company in Korea. When he wrote us he said his company was on the way to the fighting lines and that they would be there for about 10 days. He writes that the food is good in his outfit and that the men have their winter clothing and they are warm. He likes the "SANDIA BULLETIN" he reports, and he sent us a corrected address which we will use immediately. Larry also wants to hear from us (W. E. 54-6). Letters are what he looks forward to hear from his friends. His address is: Pfc. Lawrence J. Chevrolet, US, 54021951, Co B, 8th Tank Bn, APO 25, c/o Postmaster, San Francisco, Calif.

Jill Ross, 2125, and his wife, Margaret, 3960, had their Christmas holidays in Kansas with his parents.

Carrington, N. M., welcomed back home from his same base service, Mr. Paul Bennett, 3325, for the Christmas holidays.

Truman Dexter, 3320, took off for Texas for the holidays. He is in particular those of us men who have been chosen for this special assignment in the atomic weapon program which is so important because its success will either prevent war or win if America is destined to fight a war. And also in the years to come, let us resolve to practice tolerance, charity and equality — for these are more faults of a good American.

To these three, add your own resolutions. Choose them wisely and cautiously, then abide by them. And finally let us be thankful that we live in a country where we may determine our own resolutions. It would be a sad day if on Jan. 1 our neighborhood committee handed us a ready-made list of our plans for the year.

In fact, we may be grateful that we live in a country where we may not determine our own good intentions but that, on the contrary, our government does.

Grant your beatings and resolve wisely.

Santa Claus alias Jean Abrell presented Naomi Morris with her Christmas present at a recent lunch party held by the staff of the sales department of Santa Fe. She was accompanied by 2332-3, and spent the time at home.

Shirley Jeffries, 2462-2, spent her holiday vacation in Denver, Colo.

Bernice Henry, 2463, is spending the Christmas holiday in Kansas City with her family.

Nell Shoppie, 2119, and her husband, Jack, 3133, are in Colorado Springs, Colo. for the holiday season.

Department 1530 had a Christmas party on Jan. 1 and the festivities were highlighted by the singing of a quartet consisting of Dewey Coch- ten, Frank Tisdale, John Robinson, and Bill Thorn. Jim Robinson, all of 1530. The quartet sang spirituals and several Christmas songs.

Members of Department 4311 entertained with an open home Dec. 24 in the home of Francis X. Vogel.

Kay Ruffner, 1110, is spending the holiday season with her family in St. Louis, Mo.

Karl Massegitti, 1532, has been on his "leave list" for a few days.

Jackie Barnes, AEC, and her husband, Ronnie, are back home again after their visit with relatives near Pratt, Kansas.

It was a Christmas with relatives for Noma Des Tilley, AEC. Several of her friends came to her home to observe the holidays in her home.

Jo Tintley, AEC, took her two weeks of vacation over the holidays and came home at the time as in Albuquerque.

Visiting in the home of Ely Hardy, AEC, over the holidays were her children and son-in-law from Chicago.

Louise Williams, AEC, was visited by her nephew, a sergeant in the Army, Christmas weekend. He is stationed at Travis Field, Calif.

After three years of working in 1714 Los Barony has transferred to 364-1.

J. B. McCullar, 2121, and wife, Lillian, 2462, took off for Arundel, Oke, for their Christmas holidays and are spending the holidays in New red and black Oldsmobile 98.

Come into town we sent Arby to see us and find out how we were spending our vacation.

Glen Hasle and Harry Seidel, both of 2335, vacated recently and spent the time at home during the holidays.

Chris Waggner, 2231, stayed right in Albuquerque while enjoying and spending a Christmas at home.

Marcia Schifano, 2462, recently came back home from a enjoyable vacation in California. She visited members of her family and friends in Las Vegas, N. V., on the way back.

Ted Alexander, 4231, took his vacation before Christmas, but man- aged to get in some time in the office during his time off.

Frank Gehre, 4233, reports that while he was taking his vacation he went to the Nevada desert. He took only enough time off to visit the "Walt Disney" Christmas tree.

Polly 3155, and Jimmy L. Keys left San Diego, Calif., at the beginning of Christmas and will be visiting his parents in Los Angeles, Calif. Polly's family celebrated December 25 at the home of her aunt and uncle — parents, children and grandchildren, Polly being the youngest aunt.

Dave McGiboney, 2312, his wife and two little girls enjoyed their first Christmas in their new home on Apache Drive.
When They Spin War Stories Mike Can Join in and Tell a Jim-Dandy

Demolitions expert J. C. "Mike" McClafferty learned his trade the hard way. During World War II he was a member of a Marine Raider battalion commanded by Colonel Jimmy Roosevelt. Mike, who was an expert in the use of explosives, tells a story to tell when the boys sit down to spin yarns about the recent fracas.

Cop's Commandos

The Raiders were the U.S. Marine Corps equivalent of the British Special Air Service. Every man was a specialist. They operated in small groups, and their tactics were not known to the enemy. They would make assault landings on enemy-held islands and establish beachheads for Army forces or they would raid Japanese islands on the way to destroying airfields or communication centers and thus preventing any organized resistance could be formed.

Mike's experience with demolitions dates back to the time when he was working as a swimming pool contractor. When he joined the Marines in 1941 and was sent to Dutch Harbor, Alaska, in 1942, he had his first taste of action when the Japanese bombed the island.

A year later Mike found himself in the New Hebrides Islands as a member of the Fourth Raider Battalion being formed under Jimmy Roosevelt. The training Mike went through there will be remembered for the rest of his life.

For months Mike's troops were on forced marches with short rations. While on the march, he and his troops learned hand-to-hand combat and even every night practiced making landings from rubber boats.

Mike's Attacks

Mike was in on four strikes against enemy-held islands. He destroyed Japanese ships and bases. When the Japanese were not destroyed, he then in one way or another put them out of commission. In 1941, at a small island, he captured 100 men, mostly women and children. Today Mike scarcely looks at all like a hardboiled Raider. He's a contented family man with three-year-old son. When asked if he still misses war, he will tell you with a smile that he will never forget his experiences.

Mine McClafferty

Doc, the 444

Doc was in the Navy, a Gun Totin' Lady Helped This Army Musician Wow GIs on Two Continents

"Pickin' Pammel" Morn, was just a popular song to most people back in 1944. For Dalton "Doc" Harrell was the singer. "Pickin' Pammel" opened the door to the entertainment world and would open many others.

Doc, 444, is a navy promoter and leads a seven-piece band that enjoys the support of the El Paso-Juarez district. The song that got lady was the start of it all.

Today Mike scarcely looks like a hardboiled Raider. He's a contented family man with a three-year-old son. When asked if he still misses war, he will tell you with a smile that he will never forget his experiences.

Border Patrol Life Is Routine But Interesting

Les Cole, 32, a border patrol agent for 22 months, is one of the best of them, and many times joins the other agents in the border patrol station in McAllen, Texas. The border patrol is a branch of the U.S. Immigration Service, is assigned the job of detecting and catching unlawful entrants into the United States illegally.

Les is "most of the paternal (including himself) who has a 7-year-old son, who has been channeled at that point, leaving a strip of Mexico north of the river. The old river bed is fenced and heavily patrolled, but a hard spot to catch anyone at night.

Although Les was never target for a hostile bullet, Mrs. Cole wondered from day to day whether he would come home. "The Border Patrol isn't a job for a family man," Les tells you.

Mike, the border patrol agent, was a clean cut guy. Les says, "men who can depend on. The old timers have some interesting stories to tell about the prohibition days, a gun range firing right under the moon. The job is mostly routine now."

Les's employment before that—from 1934 to 1941—was a "wonderful vacation."

"Wes tern Swingbillies," DOC worked for the Soil Conservation Service as regional supervisor around Las Cruces, N. M. He and his wife, Marie and their other son, Randy, 1, are new residents in El Paso. Marie says she enjoys the city of El Paso, the El Paso Juarez district. The Rio Grande is a 2-by-3-mile strip of land called C. "Mike" McClafferty, a member of the Fourth Raider Battalion, has been an expert in the use of explosives. He was involved in the demolition of enemy-held islands during World War II.

Also, the song "Pickin' Pammel Morn" helped Doc Harrell in his career as a musician. This song was popular during World War II and helped Doc become a performer.

Another member of the Savage family, Doc and his wife Marie and their son Randy, live just a little way out of town.

Doc's brother, Rich, is also a band leader. He says he enjoys his work and that it is a great way to make a living.

Doc and Richy, 4, is also a band leader. He says he enjoys his work and that it is a great way to make a living.

Musicians
they play in a symphony orchestra because they love music -

There are two ways to enjoy the beauty of music. One is in the role of the musician and the other as a listener. Which one gives the greater enjoyment is an often-debated question, but it is agreed that anyone who loves fine music finds much pleasure either in listening or playing.

We have pictured here a few Sandians who find their happiness in music by being a member of a symphony orchestra. Without pay, other than what they receive from their own satisfaction, they practice long hours and play in several concerts each year with the Albuquerque Civic Symphony Orchestra. Thus they provide an evening of enjoyment for those who satisfy their desire for music by being in the audience.

PLAYING PERCUSSION instruments in his first year with the Symphony is Karl Zimmerman, 2534. Fascinated by the stirring tones of the drums, tympani and cymbals while in high school, he joined the school orchestra and since that time has taken instruction under several private teachers and played professionally with many bands and orchestras including the Nutley, N.J., Symphony Orchestra.

WHEN EIGHT YEARS OLD, Martin Gustafson, who now works in 1511-1, lived in Chicago and started studying violin. Later he studied at the American Conservatory of Music and the Chicago Musical College and had several private instructors. He has played with the National Broadcasting Company symphony and with the Chicago Civic Opera and also orchestras in the Palmer House and Drake Hotel in Chicago. This is his third season with the Albuquerque Symphony.

RALPH KUTTNER, 1242, is playing the bass clarinet in his first season with the Symphony. Ralph started studying music in 1940 in Beloit, Wis., and received additional training at the University of Wisconsin where he played with the concert band. He also plays the B-flat clarinet. Ralph says no one else in his family plays an instrument and he started because he thought it would be nice if one member were musical.

WHEN SEVEN YEARS OLD Naomi Goodman, now wife of Wolf Goodman, 1242, started practicing on the violin at her home in Sulphur, Okla. She later studied music at the University of Oklahoma and Eastern School of Music in Rochester, N.Y. She has played with the Oklahoma City Symphony, the Eastern School Symphony and the Horunten Symphony orchestra. This is her fourth year with the Albuquerque group. Naomi says she is not from a musical family. She plays because she "wants to."

A VETERAN MEMBER of the Albuquerque Symphony is Ed Ancona, 2465, who is now playing his tenth season with the orchestra. Ed learned to play the bassoon when he was in sixth grade and has studied at the Eastern School of Music and at the University of New Mexico. Ed has played clarinet and bassoon in the Rochester, N.Y., Philharmonic Orchestra, Burbank, Calif., Symphony and with several other groups. He is a native Albuquerquean and his wife has taught music in the Albuquerque schools.

RUTH GROTHE, wife of Martin Grothe, 4314-1, started playing string bass during her Milwaukee high school days. She has studied with the Boston Symphony Orchestra and at the University of New Mexico and played with the Milwaukee Young People's Symphony. Music is Ruth's hobby and she comes from a musical family where her mother and father and four brothers and a sister all played instruments. This is her fifth season with the Albuquerque orchestra.
SYMPATHY

Employees of Sandia Corporation extend their sympathy to Donald S. Ellis, 2112, and his wife for the death of their 13-year-old son, Donald. He died Dec. 27 after being acutely ill for a week and a half with a 102 degree fever. The 13-year-old was a student of Desert Vista High School.

Employees wish to express their sympathy to John Kane, 253, on the death of his mother. She died Dec. 26 in Portland, Oreg.

Sympathy is extended to Truman Gillette, 3719, for the death of their 5-month-old son, Robert Gillette. He was born on Dec. 29, 1951.

ALBERT W. FITZ is the new division supervisor of 1523. He arrived here in 1948 from 1946 New Mexico State University. For two years at 1523, he was a member of a technical division.

RAYMOND H. SHULTZ has been appointed supervisor of Division 1333. He came here in 1964 from Los Alamos University and has been at Los Alamos since 1947.

WILLIS C. GASKILL has been appointed division supervisor of 1335. He has almost four years' experience with aircraft and missiles. Willis has been a research engineer, design coordinator, consultant engineer in Sweden, contractor specialist, and chief project engineer with the U.S. Rubber Co. for six years prior to us joining us last June. Willis has a B.S. degree in mechanical engineering. He is married and has two children.

JACK R. SULLERT has been promoted to section supervisor of 2535-S. He has a total of 17 years' experience as a development engineer with General Electric company at the Sandia research and development laboratory, Cleveland, O. Jack came to us in February of 1951. Here's the Year 1951 As Reported by the Bulletin

The past year here at Sandia has been full, eventful and quick. With Sandia being a relatively new installation, our task is much more important than ever and we should all be proud of the fact that we are doing a fine job of making the best of our assignment.

Jan. 5: "Have a heart," read an article in The Bulletin. "Let's show some humanity and pity on the poor car parked next to yours." It was a plea for fewer sport utility vehicles and for the motorists of the Sandia Corporation to do their part in making the roads safe for all drivers.

Jan. 19: L. J. Heilman became superintendent of the Sandia Corporation's photography department. This was the first time in the company's history that such a position was created.

March 2: T. A. Tenney was named manager of the Sandia Corporation's transportation department. He had been a member of the Sandia team for many years and was well-versed in all aspects of transportation.

March 21: The Sandia Corporation's new gym was opened to the public for the first time. The gym was the largest in the state and was equipped with state-of-the-art equipment.

April 7: It's almost fishin' time, the Bulletin noted, and a few tips as to where to find em. Sandy Hyatt, 246-2, told of a small stream near Alamosa that was teeming with fish.

May 11: Group life insurance for employees was announced. Saloon men were given a certificate by AEC for attending the Safety Club meeting. Tenali, 427, had two sons home from college, and was going to work in 2101 before going into the service to be revealed at the hand service with the National Guard.

May 21: C. H. DeBilin was the new chairman of the American Society of Mechanical Engineers in New Mexico. He was announced. Ronnie Smith, son of Ed Smith, 200, Smith, and 220, was selected to the Sandia High School baseball team to state championships.

June 1: Vacation season began and the Bulletin followed the Atchison's wedding trip to Michigan. Wedding bells rang for Mary March 20, 2102, and 220, with David Thompson, 200, and Helen Louise Trainer, and Theresa Gonzales, both of 2102, 220, and 240, were the stars of the wedding. In New York, 2313, was the name of the movie in which he reported he preferred the New Mexico to 72-degree Below.

June 22: Dave Tarbox, 2410, was elected president of the Coronado Club. Commodore Worth was named new AEC field manager for the Sandia Operations Center, and M. Rebrink, Mr. and Mrs. Harold Brown, Pat Mazzotta, and Richard R. Kinney, five new members were elected to the Board of Directors. Secret and Top Secret.

Din and Dig

April 13: R. C. Deutschbeke became the new president of the Sandia Corporation. Jack Hunt, 2410, and Jerri Petersen, 2410, dug their way through the snow to the office to make the announcement. The new president, in his address, said he was looking forward to the coming of the Coronado Club during the fall of July.

July 6: Gino Carli, 2312, was host of "The Bulletin" program on KCEX radio. He had been with the company for ten years.

August 31: New Gym 100, 2450, was the best team in the state. Their fine team work earned them the gold medal in the state championship.

September 12: Bob Smith, 2124, received a certificate from the University of Kansas for his service in the military.

October 25: Ed Mazzotta, 2534-2 supervisor, told his story of a trip to Europe and the Middle East. He was stationed in Korea waters a few days ago.

November 7: Ronnie Smith, son of Dr. Ronald Smith, 2461-2, told her story of a trip to Europe and the Middle East. She was stationed in Korea waters.

December 22: Happy Holidays were given a certificate by AEC for attending the Safety Club meeting.

Green Garners Appear

December 25: Ralph P. Anderson and lovely Greer Garson were guests of employees on the Christmas Eve. There were 167 newcomers to the Coronado Club.
